FOOD ALLERGIES & LIFESTYLES

We are passionate about serving students. From managers to front line servers, we work diligently to address students’ specific needs, especially those with food allergies, Celiac disease, or special diet needs.

Here are some things we have done to make our environment more allergy conscious:

• We received an A+ rating from PETA2 for being vegan friendly
• We take pride in sourcing wholesome ingredients, preparing recipes accurately and providing nutritional analysis and ingredient statements through our online menus and nutrition calculator. We have made our cooking process “from scratch” to control ingredients in recipes.
• ALL staff are gluten-free certified
• Recipe and procurement changes to make recipes which normally contain gluten permanently gluten free.
• We meet one-on-one with anyone who has a food allergy or lifestyle choice. We commit to either adding options, or in many cases, creating a special plate specific to their diet by a certified chef at their request three times daily.
• If you have a food allergy or lifestyle – we want to meet one-on-one with you to help you have a safe and fulfilling dining experience with us. Contact our main office to schedule a one-on-one consultation or walk-through (310) 338-2977.
